Attach the wheel kit with the Wheel on the outside of the Boatlift .

The Bracket goes on the Side Panel of the lift just in front of the V in the center of the Side Panel.

Note: the Bracket should be mounted on the Side Panel towards the Winch end of the Boatlift.

Attach the cable to the top Frame Rail and fasten using the removable link.

**CAUTION!**  
Do not raise the Boatlift any higher than is needed to bring the wheel kit to its maximum height or damage to the Top Frame Rail may result.

**WARNING**  
DO NOT raise the boatlift with boat installed and the wheel kit cable attached. The wheel kit is designed for the "boat lift only" detach the cable when not moving the Boat lift
